Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Anthony Curtis on September 15, 2005.

The application has been amended as follows:

- Claim 20, line 1: the dependence was changed from "claim 11" to "claim 1".

Reasons for Allowance

3. The present claims are deemed allowable over the references of record since the references of record fail to disclose or render obvious a magnetic detecting element meeting the claimed structural limitations.

The prior art of record disclose magnetic detecting elements possessing antiferromagnetic (AFM) layers disposed in the track width direction at each side of a multilayer laminate (see *Ho et al.*, '056 B2), "exchange tab" structures disposed above a free magnetic layer (see *Zheng et al.*, '598 A1), and structures possessing a side biasing element of two AFM layers separated by a ferromagnetic layer (see *Umetsu*, '787 A1). However, none of the prior art of record discloses or renders obvious a magnetic detecting element comprising a multilayer laminate meeting applicants' claimed limitations combined with second and third AFM layers meeting applicants'

claimed limitation and a continuous second free magnetic layer disposed over each upper surface of the pair of second AFM layers and an upper surface of the first free magnetic layer.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
